

# CALLIANDRA HYBRID 'MARICOPA RED' Hybrid Red Fairy Duster

- Low to moderate water
- Full sun to part shade
- Attracts butterflies
- Attracts hummingbirds
- Rabbit resistant
- Deer resistant
- hybrid

## Why we love it...

Plant one of these low-maintenance beauties and forget about messy hummingbird feeders and sugar water! The red, feather-like plumes of fairy duster will have hummers visiting your garden from early spring through fall while furnishing your garden with color nearly year-round.

Exceptional heat and drought tolerance, ferny semi-evergreen foliage and the open, rounded form of this shrub make it a versatile choice; a perfect fit in natural landscapes, or as a specimen in the more manicured garden. 'Maricopa Red' is a hybrid between the native and hardy pink fairy duster and the more tropical Baja fairy duster, resulting in a compact and cold tolerant fairy duster with vibrant red flowers. For best results, provide good drainage, at least 6 hours of full sun, and irrigate once a month.

**Lydia says:** You can encourage your fairy duster to bloom more by removing the young seed pods while they are still green!

This plant is included in our Civano Select™ collection. Civano Select™ plants are handpicked by our horticulturalist for quality, form and health!

### Semi-evergreen Shrub: *Calliandra hybrid* 'Maricopa Red'

**Size (H x W):** 3-4 feet x 3-4 feet

**Blooms:** Red plumes, heaviest in spring and fall

**Exposure:** Full sun to part shade

**Hardiness Zone:** 15° F, USDA Zone 8

**Water:** Low to moderate

**Pruning:** Late spring to shape and remove any winter damage
